## **KANAAN ROUTE ITINERARY**

Kanaan is a 5 day route that includes camping in the dunes in the deep South of Namibia. Accommodation for the first night can be arranged - this is not included in the tour price. This will be on your own account as our tour officially starts on departure after breakfast the following morning.

### **DAY 1**

After breakfast we do a short safety talk and get the vehicles kitted with two-way radio's so we can start getting used to radio etiquette. From our overnight accommodation we depart to the Kanaan entrance gate, where we enter the Park. The first day is laid back driving and game viewing, such as Oryx and Springbuck, some Ostrich and if we're lucky maybe a Leopard. Depending on the day's activities and traveling, we'll spend the second night at a granite outcrop or spectacular dune hole with a spectacular view, and daunting challenges.

### **DAY 2**

After breakfast, we enter the dunes and start introducing everyone to dune driving techniques and general safety aspects. The first three hours is slightly uncomfortable driving as a result of the grass mounds, thereafter its clean dune driving. We'll be making regular stops to take photos and to get refreshments. We'll be visiting Witberg, an unforgettable sight. During this day's activities everyone will be warming up for the big dunes ahead on the third day.

### **DAY 3 & 4**

On this day we won't cover much distance because of the extremely high dunes, but rest assured it will be adrenalin fueled - testing each driver, passenger and vehicle. On the third night we will sleep amongst the highest dunes in the world and under the most magnificent night skies ever. We creep towards the Atlantic, where we arrive at our oasis in the Namib Desert. We spend time in leisure at the fully equipped tented camp in Meob, including generator electricity, warm water and flush toilet facilities. Guests can choose from angling in one of Africa's best fishing spots, explore the dunes or visit some of the various abandoned mining camps or shipwrecks, or even simply soaking up the sun while relaxing with a good

book at camp. After an exciting fishing day we like to spoil our guest with fresh fish prepared with our secret recipe for supper. Every afternoon we enjoy sundowners as we welcome the cool desert night and get cosy around the camp fire in our boma, sharing good food and fireside adventures.

## **DAY 5**

It is our last day and we start a 6 hour drive up the coast where you will see various attractions like the greater Meob Bay, shipwrecks, plenty of cape fur seals and jackal, ending your adventure in Walvis Bay.

We do offer the addition of one day to the tour in order to view the wide spread historical attractions of the abandoned diamond mining towns of Grillenberger, Holzhatia and Sharlotenvelde.

PLEASE NOTE THAT THIS TOUR CAN BE EXTENDED TO INCLUDE UP TWO ADDITIONAL DAYS AT THE AVAILABLE CAMP.
